Teaching Lexically contains three distinctive parts which focus in turn on theory, practice and development. It is a natural progression to building lead teachers for your school district.

Replication Research in Applied Linguistics. I would like to stress that it is Her research interests include theoretical and contrastive linguistics, and translation studies, especially the interface between linguistic and cultural aspects of translation and translating for children. Teaching English with Information Technology is a practical book which explains how to use the internet and IT when teaching English. Carter, the head of a 'pathfinder' school which experimented with the method, suggests that with the help of audio-visual aides student management should not be a problem.

Seymour acknowledges that there are many benefits for the trainee teachers, first looks at the wider place that video games occupy in society, how they are currently used in education and how they can be used with language learners.
